Mr Barry O'Farrell, MP  
Parliament House  
Macquarie Street  
SYDNEY NSW 2000

Good morning Mr O'Farrell,

Thank you in the event that you are reading this letter. I understand the demands on your time must be enormous.

So as to avoid unnecessary repetition, may I direct you to the attached (and as yet unanswered) letter to Kristina Keneally.

I understand the contentious nature of this debate but I trust you can sense my determination to somehow make progress on this issue, regardless of the wealthy and influential forces that will lobby for a continued laissez faire approach by governments.

Against the backdrop of my letter to the Premier, would you please make any comments that you see fit.

I would ask that at a minimum, however, you clearly articulate your Party's stance on the issue of non-medically indicated circumcision of infant males.

Once again, thank you for your time.

Yours sincerely
