

23 February 2011

---

Dear Peter,

Thank you for contacting Senator Brown; I am replying on his behalf. We appreciate you bringing your concerns about infant circumcision to our attention. Although we have a health policy, it does not include a position on each and every medical procedure so I am unable to offer a specific comment.

Australian Greens policies are formulated with the maximum possible participation of our members and policy frameworks are adopted as official policy by the consensus of a National Conference.

If you wish to become involved in this process please visit the Australian Greens website for more information ([www.greens.org.au](http://www.greens.org.au)).

Kind regards,

Anna Sildever  
Office of Senator Bob Brown
