Re: My letter to the Prime Minister regarding infant male circumcision dated the  
19<sup>th</sup> November 2010

Good morning Mr Thompson,

It is now four months since I met with you and delivered a letter addressed to the Prime Minister regarding the practice of non-medically indicated circumcision of infants in Australia.

It is one month since I wrote to you requesting an update as to the progress of my letter.

At least the considerable time spent on preparing a reply indicates that I can expect detailed, lucid and considered responses to the questions I have raised.

Yours sincerely,
