Re: My letter to the Prime Minister regarding infant male circumcision dated the
19th November 2010

Good morning Mr Thompson,

It is now 3 months since I met with you and delivered a letter addressed to the Prime Minister regarding the practice of non-medically indicated circumcision of infants in Australia.

I understand that the Christmas period, floods and cyclones have dotted the intervening period.

I believe that it is timely, however, to ask for an update as to the progress of my letter.

Yours sincerely,
