Good morning Dr Alexander,

Thank you for taking the time to read through my letter to you.

I understand that you are possibly not the ideal person within your organisation to comment or assist with my issue.

Perhaps you would be kind enough, however, to direct it to the ideal person, group or committee.

I have attached a complaint sent to the NSW Health Care Complaints Commission as well as a letter sent to the NSW Premier, Kristina Kineally.

The HCCC has since replied, verbally at least, to the effect that Dr Sxxxxx has no case to answer and everything is fine.

I've no idea as to whether Dr Sxxxxx is a member of your organisation but I am still extremely interested to gain an insight as to how your organisation might view the situation my son and I find ourselves in.

Once again, thank you in advance for your time.

Sincerely,
